## AGENDA

1. Welcome & introductions.
2. General Manager to provide a brief update to the board on District Business (including but not limited to):
  - a) The Middle Magma Regional Flood Control Project
    - i. The Watershed Plan (Plan), Environmental Assessment (EA), & Finding of No Significant Impact (FONSI) have all been approved and signed by NRCS, BLM, & BOR.
    - ii. 90% design plans submitted to NRCS on 8/26/25; review comments received on 1/28/26. Goal date for submittal of 100% design plans to NRCS is 5/1/2026.
    - iii. Documentation and acquisition of needed Land Rights: goal date--TBD. Note: All land rights must be acquired prior to applying to the NRCS WFPO Program for construction funding of the Project.
      - a) On 10/30/2024 MFCD and Pinal County finalized and executed the 2<sup>nd</sup> IGA for this project. The project costs including land right acquisitions will be split 50/50 between MFCD and Pinal County.
      - b) Pinal County land department & MFCD are working together to request that the courts clarify and perfect drainage easement rights within Wild Horse Estates.
      - c) The majority of land rights needed for the project are coming from BLM, BOR/CAP, ASLD, & the Copper Basin Railway (whether through contribution or acquisition). Securing land rights from these entities is a priority focus for the project and the work is currently underway.
    - iv. *Note: Everything below this point is based upon the assumption that all land rights have been secured, Final Design and any needed funding grants are approved and authorized. (Federal Funding of Construction is the preferred approach although other options will also be pursued):*
      - a) Grant applications will be submitted to NRCS administered programs with the hope that federal funding will cover 100% of the construction costs.
      - b) Construction Start Date: TBD upon securing a funding source.
